## **ROOM AND AV SET UP**

### **FIT4Business Motivational Presentation**

Just as the ambiance in a restaurant enhances the enjoyment of a meal, our room setup and AV requests enhances Kriss' presentation for the ultimate benefit and enjoyment of the audience. Please discuss any changes in the room and AV setup with us beforehand. We are flexible. Our only concern is to do the best presentation we can do for your group. We do not want to cause you additional work, but sometimes just a little extra effort can mean a great deal to the outcome. The best speech can be sabotaged by an ineffective room setup.

#### **Staging**

If you are using a stage, try to position the first row of seats within 10' of the stage if possible, this allows Kriss to connect with the audience.

If a podium is being used for introductions, set it back a few feet from the front of the stage so Kriss can move in front of it.

#### **Lighting**

Our experience shows that people feel more comfortable to express their feelings and emotions in public out of the glare of full house lights. Keep the room dimly lit to create the best atmosphere for listening and learning.

Kriss moves around during his speech and gets close to the audience. He also has a great suntan - be sure that the stage area is well lit for maximum impact and effect on your delegates.

#### **Audio Visual**

Wireless (tie clip) microphones

Beta/VHS/DVD Player

TV or Projector screen at the front of the room. If you are using rear screen projection, the screen placement is at your discretion
